About

Workshop

This event is for the organization of the workshop on "Women in Artificial Intelligence" under the auspices of the IEEE CIS Chapter, IIT Indore, MP Section. This workshop aims to empower and support women in the field of artificial intelligence (AI) while providing opportunities to help them succeed and thrive in this industry. The primary objectives of the workshop include the following:

- Empowerment: Empower women by providing them with the skills, knowledge, and resources necessary to succeed in AI. This may include technical skills, leadership development, and networking opportunities.
- Awareness and Advocacy: Increase understanding and awareness of artificial intelligence concepts, technologies, and applications among participants.
- Networking: Provide a platform to connect with peers, mentors, and leaders in the AI community. Networking can be a powerful tool for career development.

IIT Indore

IIT Indore is one of the premier institutes under the Ministry of Human Resource Development (MHRD), Govt. of India. IIT Indore was founded in 2009 by the Govt. of India. In this short span of time, IIT Indore has positioned itself as a vibrant center for outstanding research. Multidisciplinary research at IIT Indore has been recognized at international level with active participation in several key international projects and several joint collaborations with academic/research institutions in Japan, Norway, USA, Germany, France, Singapore and many other countries. The institute is growing rapidly as the only center for advanced learning and knowledge-dissemination in the pure and applied sciences in Central India.
